

The image shows a modern restaurant interior. In the foreground, there is a curved bar with multiple shelves of liquor bottles. The bottles are illuminated from below, creating a warm glow. Several people are seated at tables in the foreground, and a few staff members are visible behind the bar. The ceiling is made of wood panels, and there are several spherical pendant lights hanging from the ceiling. The overall atmosphere is sophisticated and contemporary.

Imagine the first
hi-tech restaurant
with automated serving

WORLD'S FIRST

DRONE-SERVED RESTAURANT

What makes it so attractive?

- ✓ Unique technology
- ✓ Extraordinary experience
- ✓ Processes optimization
- ✓ Attention grabber
- ✓ Magnificent show
- ✓ Profit Maximization

A photograph of two women sitting at a wooden table in a restaurant, engaged in conversation. The woman on the left is wearing a grey long-sleeved shirt and has her hands clasped. The woman on the right is wearing a black top and is holding a glass of red wine. The table is set with a bottle of water, glasses, and a basket of bread. The background shows a busy restaurant interior with other patrons and hanging pendant lights. The text "Ensure reservations for months ahead" is overlaid in white, with "months" underlined.

Ensure reservations
for months ahead

Unforgettable show

- At first place, flying drones in the restaurant is a great show.
- Guests come in search for new experience and our technology is able to exceed their expectations.

Inamo London

Interactive Tables

Reservation wait time —
up to several weeks

High tech

To deliver the order from kitchen to table, modern technologies are used, including:

- neural networks
- full automation of drones
- objects visual recognition

OTG Experience

Digital tabletop menu

Revenue in 2017: **\$ 285 million**
from **300** restaurants around the world

It's time to take action!

- Be the first one to implement flying drone waiters.
- Expand your horizons and join the tech companies community

Kura Revolving Sushi Bar

POS-terminals, order and delivery panels

Staff expenses **dropped 70%**

Cost of implementation

An option for large restaurants with high attendance **up to 48 tables** (12 drones).

Approximate floor space — **up to 400 m²**.

Estimated cost of technology implication without construction — **from \$ 295 000**.

Further steps of development

- Development of complex software (ordering system + delivery)
- The introduction of instant payment technologies through QR codes and NFC
- Optimization of restaurant workflows
- Expansion to new markets

Shanghai Ultraviolet

With the help of technology, a dinner in the restaurant turned into a unique experience.

Average check: **from \$ 900**

A photograph of a modern bar interior. The scene is dimly lit with warm, golden-yellow lights. In the foreground, a long, dark bar counter is visible. Behind it, a series of white, cylindrical bar stools are lined up. The background shows a well-stocked bar with various bottles and glasses. To the left, there's a chalkboard with some writing, including "FEB." and "HER". To the right, there are shelves with more bottles and a sign that says "BREWERY" and "QUOR". The overall atmosphere is cozy and contemporary.
